RSCM Fund VI, L.P. 2025 Q3 Update

Intended Only for Limited Partners of RSCM Fund VI, L.P.

Fund Financial & Performance Summary Since Inception

Capital Committed: \$55,070,000

Capital Called: \$ 24,781,500

Fund Expenses & Interest: \$ (2,060,427)

Unrealized Appreciation / Depreciation: \$ 2,421,191

Realized Appreciation / Depreciation: \$ (249,000)

Distributions: \$ -

Accrued Carry Fees: \$ _____

Partners' Residual Capital Balance: \$ 24,893,264

Net Performance Summary (Post all fees)

Residual Value to Paid-In Capital (RVPI): 1.00

Distributions to Paid-In Capital (DPI): 0.00

Total Value to Paid-In Capital (TVPI): 1.00

Dear Limited Partner,

The following documents are included in the LP reporting package for Q3 of 2025:

- Portfolio Summary Performance Report
- Unaudited Quarterly Fund Financials
- A list of active Fund portfolio companies as of Q3 2025

In addition, a link to a copy of your quarterly capital account statement was included in the email and can be accessed anytime on our [investor portal](#).

Q3 Summary of Fund Operations

In May 2025 the Fund held its final close, bringing total committed capital to \$55,070,000. In October 2025 the Fund issued a 15% capital call, and anticipates calling 20% in late Q1 2026, which will bring total capital called to 80% of committed capital.

During the quarter the Fund made investments in 24 companies: 5 direct investments and 19 via the Forum Ventures accelerator and studio channel.

The Fund also made a new commitment to the MARL accelerator channel and additional commitments to the Forum Ventures accelerator and studio channel and the Jumpstart Foundry channel.

Forum Ventures Accelerator & Studio Channel

The Fund made 19 investments in Q3 via the Forum Ventures accelerator and studio channel.

Forum Ventures operates two strategies: an accelerator and a venture studio. The accelerator provides capital to startups that enter their program and covers some of the basic overhead costs of operating the startup accelerator. Forum Ventures currently has programs in San Francisco, New York City, and Toronto and focuses almost exclusively on B2B SaaS companies. The venture studio incubates ideas internally, builds companies and teams around them, and supports them with capital, talent, and infrastructure until they're ready to scale independently.

The Fund's commitments to Forum Ventures as of Q3 are outlined in the following table.

	RSCM Fund VI Commitment	RSCM Fund VI Ownership %
Forum Accelerator V	\$8.4M	49%
Forum Accelerator VI	\$4.0M	35%*
Forum Studio I	\$1.6M	17%
Forum Studio II	\$5.0M	40%*

*fundraising is ongoing, exact percentage unknown

Jumpstart Foundry Accelerator Channel

Jumpstart Foundry operates a healthcare focused startup accelerator program based in Nashville, TN. The Fund's commitments to Jumpstart Foundry as of Q3 are outlined in the following table.

	RSCM Fund VI Commitment	RSCM Fund VI Ownership %
Jumpstart 2024 1H	\$600k	35%
Jumpstart 2024 2H	\$600k	32%
Jumpstart 2025 1H	\$300k	32%
Jumpstart 2025 2H	\$300k	33%

MARL Accelerator Channel

MARL (Mobility, Autonomy, Robotics and Logistics) provides hands-on accelerator services for startups operating in the Deep Tech space.

The Fund has a \$1.625M commitment to MARL Fund III and owns 75%.

Q3 2025 Direct Investments

The Fund made five direct investments during the quarter:

- [AgileAI Labs](#): Streamlines Agile development using AI for test generation, security, and requirements. The Fund invested \$300,000 into AgileAI Labs using a post-money SAFE with an effective \$2.2M pre-money valuation. AgileAI Labs is based in Salem, NH.
- [Dentist Finder](#): Instantly matches patients with dentists and books appointments in real time. The Fund invested \$300,000 into Dentist Finder using a post-money SAFE with an effective \$2.0M pre-money valuation. Dentist Finder is based in Calgary, Canada.
- [Elixir Technology \(Trivora\)](#): Converts broker data chaos into structured real estate intelligence using AI. The Fund invested \$300,000 into Trivora using a post-money SAFE with an effective \$3.7M pre-money valuation. Trivora is based in New York, NY.
- [Origin Speech Therapy](#): Enables insurance-covered pediatric speech therapy via therapist-run practices. The Fund invested \$50,000 into Origin Speech Therapy using a post-money SAFE with an effective \$1.85M pre-money valuation. Origin is based in San Francisco, CA.
- [ShowStop](#): Identifies which creative ad elements drive performance using AI. The Fund invested \$250,000 into ShowStop using a post-money SAFE with an effective \$1.75M pre-money valuation. ShowStop is based in Boulder, CO.

Q3 2025 Portfolio Update

Below is an update of significant portfolio company events during the quarter:

Financing Rounds

- [Big Rentals](#): Big Rentals raised a \$2.8M Seed round. The Fund's position was marked up to \$179,897 from \$72,071. The Fund originally invested \$72,071 into Big Rentals.

Positive Company Performance

- [Each Labs](#): The Fund's position was marked up to \$560,000 from \$300,000. The Fund originally invested \$300,000 into Each Labs.

Negative Company Performance

- [Harper](#): The Fund's position was marked down to \$0 from \$49,704. The Fund originally invested \$49,704 into Harper.

Please do not hesitate to call or email us with any questions.

Sincerely,

David Lambert, Jeff Pomeranz & Kevin Dick
Managers, General Partner

RSCM Fund VI, L.P. Portfolio - Q3 2025

2025 Investments

AgileAI Labs	Streamline Agile development with AI-driven tools for automated requirement enhancement, test case generation, and security requirements.
Agorix	All-in-one platform for sourcing, marketing, and acquiring small businesses.
Armada Biotech	AI-powered, mobile ultrasound platform delivering affordable, automated fetal exams to improve maternal health access in clinics and remote areas.
Asapi	Specialized APIs that supercharge AI Agents with tailored search, scoring, and recommendations.
BioMedict Inc	Revolutionizing pain management with AI-powered biometrics.
BLDX	A digital platform that streamlines construction scheduling, documentation, and collaboration to boost efficiency and project management.
Brick	AI-driven energy platform cutting costs and emissions up to 35%, with full autonomy, predictive analytics, and seamless system integration.
Buzzable	Simplify event management with AI-powered tools for creation, engagement, and payments, enhancing experiences for organizers and attendees.
ByteRoll	AI agents that speed GTM and compliance for life sciences firm.
Cached AI	Preventing fraud at banks and fintechs by identifying risky users and devices in real time using behavioral and network signals
ChukAI	AI margin intelligence for independent distributors that boosts profitability through pricing, rebates, and operational insights.
Cipher	Real-time protection of AI agents from prompt injection, jailbreaking, and traditional cyber threats across all modalities. Monitoring voice agents and make sure they don't disclose credentials.
Clinic Catalyst	AI agents that automate clinic calls, scheduling, and paperwork to reduce costs, increase visits, and boost patient engagement.
CodeAura	AI platform that accelerates legacy code modernization with real-time insights automated migration and deep compliance support for regulated industries.
Conjunction	Connecting social groups and communities with venues in off hours.
ConstructAI	AI agents using Vision-Language Models to automate construction workflows and facilitate clean energy decisions.

Dentist Finder	AI-powered platform that instantly matches patients with local, available dentists and enables seamless, real-time appointment booking.
Druids Inc.	AI agents that speed up Unreal Engine workflows by automating tedious dev tasks.
Elicit Labs	Real-time AI personalization using reinforcement learning. No finetuning, no prompt hacks, just better UX with one SDK drop-in.
Elixir Technology Holdings	Transforms broker data chaos into structured intelligence to power faster, smarter real estate deals through AI and communication integration.
Emulate Cities	AI for city planning departments that checks housing permits in seconds .
Evitar	Boost conversions with AI-powered Natural User Interfaces (NUIs)—conversational websites that delight customers and cut CAC by 90%.
Fexel Inc.	In Stealth Mode
Finmarine	Maritime-focused finance platform that unifies data, automates workflows, and delivers real-time liquidity control and treasury insight.
Flying Company	SaaS-enabled marketplace matching aircraft operators with pilots.
Force Equals Inc	AI-driven platform that simplifies software solution planning by defining goals, matching vendors, and streamlining execution.
Foveal Vision, Inc	AI vision processing that mimics the human eye by focusing only where it matters--95% performance using just 20% of the pixels.
Fyled Inc	AI platform that helps scientists in biotech and pharma protect and manage intellectual property.
Hypernym	API-first platform that compresses and preserves AI context with verified precision.
Identity Machines	In Stealth Mode
Jayla Health	Virtual menopause care with hormone testing, expert consults, and holistic support.
KrosAI	Voice and text AI infrastructure for emerging markets—bridging accents, languages, and offline access so billions are no longer left out.
LabSimplified Inc	Automated inventory and quality management software built for labs to reduce waste, save time, and simplify compliance in one smart platform.
Lanyard Health	Speed up healthcare credentialing for providers with AI automation and managed services, cutting delays, errors, and lost revenue.
LotLine AI	AI-powered tax planning platform that helps investors save big.
MakeOS Inc.	Built for Producers, powered by AI--instantly transforms messy production inputs into structured briefs, bids, and timelines.
Mesina Labs	AI-powered voice agents for multilingual customer interactions—no coding required. Automate calls, scheduling, and support across industries.

Moara	AI-powered academic assistant guiding students through credible research, discovery, and synthesis—modeled on how expert librarians work.
MOVEdot	AI agents that automate engineering workflows via natural language—from simulations to reports.
Naviday Health	AI-guided care plans deliver daily support and evolving insights for life's health transitions—starting with menopause.
NeuralCure AI	AI-powered platform transforming healthcare with diagnostics, simulations, and digital twins for faster, personalized medical breakthroughs.
Nexuscale	AI-powered automation and optimization for enterprises—streamlining workflows, scaling AI, and enhancing decision-making with intelligent solutions.
NULLZEC	Advanced cybersecurity solutions using digital isolation technology to protect businesses from evolving threats and enhance online privacy
Oma Health	AI-powered platform helping Nurse Practitioners start and grow independent practices from launch to patient management.
Optio.ai Inc	Last mile package delivery with proprietary algorithms enabling shippers to offer Amazon-like speed and flexibility of package delivery at typical ground rates
OraClaim	AI-powered platform automating litigation defense workflows, boosting firm capacity, reducing manual work, and delivering data-driven insights.
Orgo	Ultra-fast cloud desktops tailored for AI agents, with instant boot, full Ubuntu, and SDK integration for automation and headless computing.
Origin Speech Therapy	Empowers speech therapists to run private practices while helping families access fast personalized pediatric speech therapy covered by insurance.
PayCare AI	AI that automates radiology admin and billing, helping practices deliver care faster and get paid sooner through streamlined non-clinical workflows.
Redii	Software that enables companies to offer retirement benefits to their international team as easily as they would offer a 401(k) to their domestic employees
Retina Robotics	Autonomous robots that track any warehouse item in real time, no scanning, labeling, or auditing required.
Revilico Inc	AI-driven platform accelerating drug discovery with 70B-compound screening, lab integration, and precision refinement.
RFX Fitness	Tech-enabled racket sport fitness classes combining skill, agility, and gamified tracking, scaling through an app-based, asset-light model.
Robust	In Stealth Mode
Salubrum	AI-powered healthcare marketing platform enabling precise, cost-efficient patient targeting using 300M+ records for unmatched engagement accuracy.
scaledrive.ai	Enables general-purpose robots to work safely around people, boosting productivity and unlocking real-world deployment beyond demos.
Seawright Industries	AI-driven autonomous foundries streamline shipbuilding with faster production, lower defect rates, and fully integrated manufacturing orchestration.
Serapay	Serapay simplifies cross-border payments for African businesses with fast, secure transactions, multi-currency support, and seamless API integration.

[Shepherd AI](#)

In Stealth Mode

[ShowStop](#)

AI-powered tool that reveals which visual and creative ad elements drive performance to help marketers make smarter, data-backed decisions.

[SolyX AI, Inc](#)

Distributed AI compute via modular micro data centers, optimized for AGI and inference, with lower cost, high speed, and environmental efficiency.

[SpaceTime](#)

Autonomous AI robots that protect vital infrastructure, starting with real-time defense of underwater communication cables.

[Stock](#)

Private marketplace connecting 3PLs and Brands with excess inventory to non profits across the US

[Storychat](#)

Create and chat with AI characters, build story series, and share or monetize your creations in a dynamic, decentralized storytelling feed.

[Summoner](#)

Enables autonomous AI agents to self-organize, negotiate, and collaborate across networks.

[thinkr](#)

All-in-one platform for creative teams to plan, collaborate, and deliver high-volume marketing content with speed, structure, and visibility.

[UAME](#)

AI-powered semi-autonomous machining that eliminates bottlenecks for scalable, continuous, high-precision manufacturing.

[Vala](#)

Automates attorney's representation of veterans' benefits claims—boosting accuracy, tracking deadlines, and uncovering entitlements.

[Willow Technologies](#)

Digital tools improving safety, yard management, and vehicle maintenance through an accident reporting app, yard system, and mechanic marketplace.

2024 Investments

[ABS-Technologies](#)

AI-driven personalized treatment insights that improve patient outcomes for strokes and other medical conditions.

[Acie Skin](#)

Revolutionize skincare with AI-powered device offering personalized routines, insights, and therapies for optimal skin health and beauty.

[Acuity Behavioral Health](#)

Intelligence platform for inpatient psychiatry, improving care and safety with precise patient acuity measurement and staffing projections.

[Ai Regent \(Doc Talk\)](#)

AI assistant automating clinical workflows—cutting admin time in documentation, billing, and scheduling to boost efficiency.

[Aphrodite AI](#)

AI-driven platform predicts ad performance pre-launch, saving ad budgets and boosting ROI with synthetic audience simulations.

[Alfi](#)

Alfi

[AllMind](#)

AI-powered investment insights platform delivering real-time analysis and recommendations for data-driven stock market decisions.

Aloe	Comprehensive primary care service that reduces costs and improves employee retention through unlimited visits, personal health coaching, and no copays.
Amoeba AI	AI-driven insights that transform marketing and sales data into real-time, actionable strategies for optimized growth and demand forecasting.
Anthromind	Provides high-quality, customized data creation and labeling services for enterprise AI models with a managed workforce of domain experts.
Arkra Group Inc.	AI platform that streamlines equipment financing with real-time borrower-lender connections, empowering seamless, self-service bookings and repeat servicing.
AskSAMIE	Empowering independent living through personalized, clinically-led adaptive equipment and services for those aging in place or living with disabilities.
Asteroid Mining Corporation Ltd	Pioneering robotic asteroid mining to unlock new resources and reduce space mission costs, transforming space and terrestrial resource extraction.
Authorship	Empowers creators to track, protect, and license their work—bridging AI and originality through digital identity and authorship protection.
babytalkGPT	AI-enhanced platform delivering personalized baby care education, registries, professional services, and financial products for parents.
BetterSea LDA	Innovative solutions for reducing maritime emissions, optimizing fuel use, and enhancing sustainability in ship and port operations.
Big Rentals	Effortlessly rent big equipment with a location-based platform that simplifies booking.
Biomonadic	AI-driven platform optimizing cell culture bioprocesses for enhanced quality and efficiency in cell and gene therapy manufacturing.
Boom	Mental health app for students combining AI insights, mood tracking, journaling, and social connection in a stigma-free experience.
Brevity	AI-powered role-play platform for scalable, realistic sales training, providing automated feedback and boosting new hire ramp-up and quota attainment.
Caesarea Labs	Automated tools and systems to streamline post-silicon validation in semiconductors, reducing costs and improving efficiency and process control.
Calliope	AI-powered medical interpreter delivering accurate, secure, and real-time translations in 100+ languages to improve patient communication and outcomes.
Candlelit Care	Empowering Black birthing parents with personalized mental health support, expert coaching, and community to overcome perinatal challenges.
CARA Systems Inc.	AI-driven SaaS platform offering non-invasive risk analysis of intracranial aneurysms through advanced 3D imaging and personalized insights.
Carelog	AI-driven ECG analysis revolutionizing cardiac diagnostics by detecting hidden conditions, reducing costs, and improving accessibility.
Cedar	AI-driven career assistant for tech professionals that automates job searches, applies to roles, and offers network insights to boost career growth
Ceemo	Automated branding and pitch solutions for startups, ensuring consistent, investor-ready materials with expert support in minutes.
Champ Health	Personalized, at-home allergy tests and treatments providing permanent relief through convenient, affordable immunotherapy solutions like allergy toothpaste.

Cityzone	Experts in SB9 lot splitting.
Coast AI	AI-driven platform streamlines commercial real estate due diligence by automating lease analysis, generating reports, and integrating data sources.
Cohesion	AI-driven platform for game studios to automate bug reports, analyze community feedback, and deliver actionable insights to boost player engagement.
Color Robotics	AI-powered platform simplifying robotics ops with real-time monitoring, automated deployment tracking, and instant root cause diagnostics.
Consusis	Automated, remote-first screening platform leveraging machine vision to detect and manage Obstructive Sleep Apnea (OSA) efficiently and accessibly.
Credit Pulse	Optimize trade credit decisions with advanced tools and expert insights for smarter, efficient risk management.
Cuboid.AI	AI-powered platform and SDK that transforms existing web data into 3D content.
DatumXpress LLC	Automates QuickBooks workflows using AI for accurate, efficient financial reporting, saving time and reducing errors for businesses.
DME Connected	Streamlined platform connecting healthcare providers and durable medical equipment suppliers for real-time, paperless equipment ordering.
Each Labs	Streamline app development with visual AI workflows, integrating top models effortlessly for enhanced functionality.
Eddi	Eddi simplifies federal grant management with AI-driven insights, automated reporting, and compliance tools to maximize funding impact and outcomes.
Ellipsoid	Unbiased synthetic data and intelligent simulations to power next-gen autonomy in aviation, robotics, and beyond.
EmicAI	AI-powered market research platform delivering rapid, high-confidence insights into oncologist decision-making to optimize therapy commercialization.
EmployWell	Automates care coordination, streamlines workflows, and boosts efficiency for healthcare teams, improving patient outcomes.
Encode	Helping investors in commercial electric vehicles manage risks and optimize investments with AI-driven performance insights and automated financial tools.
Enrichly	Empowers children with self-esteem tools through a gamified platform, supporting personal growth and positive online experiences.
Eve	An emotionally intelligent AI companion for the elderly and frail that provides meaningful conversations, emotional support, and personal growth.
Fabrisight	AI-powered computer vision enhances manufacturing quality by automating defect detection and optimizing processes for textiles and CPG industries.
Fixpliance AI, Inc.	AI-automated cloud compliance, eliminating human oversight and streamlining complex remediation processes for enterprises.
FlyFund	Instant trip protection with quick financial support for travel disruptions.
Furniture Rentals	AI-driven platform that accelerates furniture design and production by connecting professionals and streamlining workflows.

Gen PF	AI-driven platform helping investment managers enhance performance and manage risk by analyzing asset performance in various market regimes.
Granularity Ltd.	Discover emerging consumer trends with AI-driven insights to enhance retail marketing and merchandising, stay ahead, and lead the market efficiently.
Gratia	A platform for businesses to hire skilled analysts while helping analysts find recurring work with global organizations.
Gratis Intelligence	Streamlines alcohol sampling events by automating processes with POS integration, real-time data, and digital consumer engagement.
Greenshoe AI	AI for drafting and reviewing SEC filings.
Grid8	Stealth
Herd Security	AI-powered defense against voice phishing and deepfake fraud with real-time detection, deepfake simulations, and Slack-based employee training.
Hilo	Seamlessly connect tenants to their building community and neighborhood with real-time communication and curated experiences for enhanced engagement.
Home Spritz	Connect with top-tier, vetted cleaners for reliable, personalized house and office cleaning through a user-friendly marketplace.
Humanate Digital Inc	AI-powered avatar streamlines healthcare access, automates admin tasks, and improves patient satisfaction while cutting clinical operational costs.
Humelan PBC.	Empowering individuals with hearing loss through coaching, community, and innovative tech solutions.
Hutsy AI	All-in-one mobile platform helping underserved Canadians budget, build credit, and access instant loans—with tools that promote real financial health.
Iluvatar	Empowering businesses with AI model evaluation and interpretability tools, Iluvatar simplifies AI development with innovative platforms and deep learning solutions.
Jump	AI-powered automation that streamlines business workflows, eliminates manual tasks, and enhances efficiency with seamless enterprise integration.
Kalavai	Decentralized computing framework enabling secure, efficient, and privacy-focused application execution without reliance on traditional cloud providers.
Kamet.io	Mitigate operational risks and boost productivity in manufacturing with AI-driven predictive analytics and real-time risk management.
Lambent Health	Empowers healthcare and social services with AI-driven solutions to integrate care and address health and social challenges.
Legix	AI-first bookkeeping software that accelerates transaction processing for accounting firms, boosting productivity, collaboration, and decision-making.
LoadPartner Inc.	AI automation of freight communications through voice, SMS, and email, enhancing efficiency and reducing manual work for logistics firms.
Lolly	Ai powered influencer marketing technology
Lucid.Care	Clear, objective behavioral health tracking for patients, clinicians, and researchers, enhancing mental health care through tailored data insights.

Luro	Specialized training empowers healthcare providers to deliver comprehensive obesity care through expert-guided, evidence-based practices.
Manufacture AI	AI-powered SOP and BOM creation, reducing time and costs for scaling hardware manufacturing operations.
Mariposa Technologies	Tech-driven platform unifying senior care through collaboration, real-time tracking, and personalized plans for enhanced aging in place.
MatchRite Care	Consolidating patient records from various EHRs into one secure platform, empowering users to manage their health data.
Middle Mile	Decentralized 2-day shipping network helping DTC brands cut acquisition costs and boost profitability without increasing logistics spend.
MobilityZ Health	Remote orthopedic care platform providing virtual consultations and hybrid solutions to prevent long-term disability from musculoskeletal injuries
Navipoint Health	Personalized health insights through DNA and microbiome testing, offering tailored nutrition, fitness, and wellness plans to optimize long-term health.
Notika	No-code AI platform for building and managing real-time transactional notifications from your database—no engineers required.
Osgil	Empowering businesses with explainable AI tools that boost transparency, accountability, and trust in AI decision-making.
Osmosis Technologies Inc	Unlocks insights from unscripted conversations, turning them into searchable data for investors, fundraisers, and sales teams to drive decisions.
Outfox Health	Custom AI copilots for health benefits navigation.
Over Easy	Nutritious oat bars with simple ingredients, providing sustained energy and great taste for busy, health-conscious individuals and families.
Ovum Health	Virtual fertility care that diagnoses faster, treats holistically, and is covered by insurance.
Panaptic	Unify, automate, and optimize complex ML & data compute infrastructure with deep visibility and AI-driven operational intelligence.
PEERR	Empowering health and life sciences professionals through specialized courses, fellowships, and networking opportunities for career advancement.
Pills2Me	On-demand platform delivering prescription medications and over-the-counter products from any pharmacy within two hours.
PlaidMug Inc.	Customized software solutions enhancing operational efficiency for businesses and non-profits.
Pointment	Transforming nail salon management with a tailored platform for booking, staffing, POS, and inventory, driving efficiency and revenue growth.
Ponderosa	AI platform automating commercial building energy and carbon audits.
PrecisionTerra	Advanced software-defined GPS technology enhances navigation in challenging environments with customizable, research-driven solutions.
Priya	AI-powered system that helps businesses optimize prices in real-time, driving increased revenue and operational efficiency.

Procure Spark	AI solution for automating RFP responses, accelerating draft creation, enhancing quality, and leveraging institutional knowledge for tailored proposals.
Procurol	AI-driven tool that revolutionizes contract management with automated digitization, risk analysis, and streamlined workflows for smarter sourcing.
Ravel Health	Affordable virtual care for Lyme, mold, and chronic illness patients with personalized provider matching and discounted lab tests and supplement
ReDB	Unifies all database operations—replication, migration, control—across any system with real-time sync, versioning, and adaptive schemas.
ReframeXR	Simplifying spatial computing adoption in education with seamless integration and rapid deployment of immersive learning experiences.
ReLease	Cancel-anytime lease platform giving renters flexibility to move penalty-free while helping landlords boost NOI, reduce vacancy, and increase conversions.
Restore Cloud	Decentralized, encrypted storage built for AI/ML workloads—delivering scalable, high-speed, and secure data access for model training.
Revedy	Automate medical coding with AI to boost speed, accuracy, and compliance, reducing costs and improving healthcare efficiency.
Rif Care	Eco-friendly, chemical-free period products for women seeking healthier menstrual care and a sustainable planet.
Root Access	AI agents built to co-engineer advanced hardware systems, accelerating innovation in robotics, embedded tech, and real-world automation..
RxCare	Helping people age 65+ manage Medicare Part D plans using AI.
Scorify	Automated tenant validation using AI to reduce default risks, improve tenant scores, and provide real estate agencies with quick, reliable insights
Self Machines	A no-code AI development platform with drag-and-drop tools for building custom AI solutions, enabling automation, visualization, and orchestration.
Shipsi	Empowering retailers with seamless same-day, next-day, and scheduled delivery to boost sales, customer loyalty, and satisfaction.
Simplecell	Offers a cutting-edge low-code bioinformatics platform that supports biologists by simplifying data analysis and management tasks.
Solisa	AI-powered CRM streamlining insurance agent workflows with automated lead management, data enrichment, and compliance tools for higher productivity and conversions.
Soverin	Curated AI software discovery platform helping businesses find top AI tools with semantic search, vetted selections, and constantly updated intelligence.
Sphere	Marketplace for real-time content used by AI models.
Splynt	Boost revenue with remote therapeutic monitoring.
Stage Zero	AI agents that accelerate physical-world R&D, starting with medical devices
Surisk	Live marketplace connecting insurance agents and underwriters for instant client matching, live quoting, and efficient risk management.

Surudo	Automate meeting prep and sales insights, reducing research time and enhancing efficiency for your sales team.
TaloBrush	A revolutionary toothbrush that cleans teeth perfectly in 20 seconds, effortlessly and intelligently optimizing oral health.
Thalorin	AI-powered platform for managing regulatory compliance.
The Care Connexion, Inc.	Healthcare marketplace connecting home health agencies with freelance clinicians, enhancing patient care through cutting-edge technology.
The Security Bulldog	AI-driven cybersecurity tool that cuts research time by 80%, offering customized threat intelligence to accelerate detection and response.
Toodu	Streamline CPG operations with task management, product tracking, and promotion planning, all in one integrated platform.
Tripsby AI	AI-powered travel planning that personalizes itineraries, automates recommendations, and simplifies trip planning for individuals and businesses.
Tune Health	AI-powered food logging delivering clinical-grade meal quantification, saving time and improving accuracy for dietitians.
UBild	Connecting builders with skilled labor for efficient recruitment, training, and retention, solving workforce challenges in construction.
Vanik	Simplifying wholesale reorders for brands with a modern, self-service platform that delivers a DTC-like experience to retailers.
Vara	Slack for MSMEs in South Asia.
Vinita	Meaningful matchmaking platform for South Asian singles, prioritizing lasting relationships through personalized, culturally-aligned matches.
Wenu Eat	Discover and enjoy healthy homemade meals from local cooks, bringing convenience and variety to your dinner table with Wenu.
Xpawn	HIPAA-compliant AI solutions that optimize healthcare data, enhance clinical outcomes, and streamline operations.
Yama Sciences	Automates compliant, customized content creation for pharma, enhancing global reach and targeting healthcare professionals efficiently.

2023 Investments

Empallo	AI-enhanced cardiovascular care for improved patient outcomes and accessible treatment solutions.
Harper	Enhance pharmacy-patient engagement with secure messaging, easy scheduling, and automated care reminders for improved outcomes and efficiency.
Pegasi AI	Enhance smart contract security with real-time monitoring, tailored policies, and proactive defense against vulnerabilities and exploits.

[Querio](#)

Empower teams with transparent data analytics, enabling independent validation and control over insights for confident decision-making.

[Scout Climate inc.](#)

Streamline climate tech grant funding with AI-driven matching and expert guidance for faster, more successful applications.

[Spero Analytics](#)

Real-time, solar-powered environmental monitoring without telecom reliance, providing seamless data collection and minimal maintenance in remote areas.

[Strucwise](#)

Automated concrete slab design streamlines projects with AI, boosting efficiency and accuracy for engineers and project managers.

[Topology](#)

Streamline EHR integration, enabling fast and secure connections with major systems like Epic and Cerner, freeing developers to focus on innovation.

[Zenoya](#)

AI-driven project management for architects, enhancing collaboration and streamlining workflows with tailored tools for design teams.
